Abilities

- ✎ Jovain Sugar Factory with a capacity of 5000 tons of sugar beet per day
- ✎ Jovain citric acid factory with annual production capacity 40 thousand tons
- ✎ Agriculture of the public sector (in order to produce sugar beet and establish mechanization stations to deliver sugar beet to contractors)
- ✎ Autumn beet planting in Golestan province and providing services to contractors
- ✎ Production of corn, wheat, etc. seeds with the best quality
- ✎ 5000 ton double circuit cold store
- ✎ It has the largest collection of commercial grapes in the east of the country and 1100 hectares of fruit trees
- ✎ Agricultural unit with an annual production of 110,000 tons of all kinds of strategic products including wheat, barley, sugar beet and...
- ✎ Machine building unit that manufactures devices for the food, mineral and pharmaceutical industries
- ✎ It has seven mechanization units for public services
- ✎ The unit of new technologies has the most equipped up-to-date laboratories and advanced greenhouses
- ✎ Owner of ten thousand hectares of land and 110 water wells

Sugar factory

- ✎ The largest beet sugar factory in Iran
- ✎ Consumption of 5,000 tons of sugar beet per day
- ✎ Ability to consume 1500 tons of raw sugar per day
- ✎ The ability to produce 24 megawatts of electricity per hour
- ✎ Production of more than 300 thousand tons of white sugar (both beet and refined) per year

■ sugar factory

Citric acid factory

- ✎ The largest citric acid production factory in the country
- ✎ Equipped with the world's first level automation system
- ✎ Production capacity of 40 thousand tons of citric acid per year (monohydrate-anhydrous)
- ✎ Has a GMP certificate from the Food and Drug Administration
- ✎ Production of various citric acid salts

■ Citric acid factory

Agriculture unit and private farms

- ✎ Production of more than 100 thousand tons of strategic seed and fodder products
- ✎ Equipped with a center pivot pressure irrigation system with 102 devices and an area of 3300 hectares and a drip system with an area of 2300 hectares
- ✎ Equipped with 77 light and heavy tractors with powers of 75 and 300 horsepower and more than 200 tractors
- ✎ Has 4 Holmer sugar beet harvesters

■ harvesting in private farms

Animal husbandry unit

- ✎ It has a cattle breeding unit with a capacity of 900 dairy cows, 1250 breeding cows and 2250 total herds.
- ✎ The ability to produce 10,500 tons of milk, 650 tons of red meat (cow and sheep) and 2,200 tons of white meat annually.
- ✎ It has a broiler unit of 180 thousand pieces
- ✎ You have 2 sheep farming units (with a total capacity of 11000 sheep) and 7000 sheep.

■ animal husbandry

Gardens unit

- ✎ Annual production of more than 10 thousand tons of garden products
- ✎ Annual production of more than one and a half million of fruitful and non-fruitful seedlings
- ✎ Modern 5000 ton dual purpose cold storage
- ✎ Production capacity of one million baskets
- ✎ It has the largest collection of domestic and foreign commercial varieties of grapes in the east of the country
- ✎ Annual export of about a thousand tons of garden products to neighboring countries

■ garden

Unit of new technologies

- ✎ Production of all kinds of solid, liquid and organic re-combined fertilizers
- ✎ Production of virus-free rootstocks for fruit trees
- ✎ Production of vegetable and summer hybrid seeds
- ✎ Production of biological fertilizers and beneficial insects
- ✎ 2 bell pepper seed varieties have been registered and 13 watermelon seed varieties, melon and 2 bell pepper varieties, 2 capsicum varieties and 5 eggplant varieties are being registered.

■ technologies unit

Seed research and production unit

- ✎ Seed processing of various corn, wheat, barley, sorghum, alfalfa, vegetables and other products with a capacity of more than 10 thousand tons per year
- ✎ Registration of 11 corn hybrid seed varieties in the national list of plant varieties of the country
- ✎ Multi-breeding and multi-crop research on wheat, barley, corn and....
- ✎ Conducting water and soil and sugar beet nematode tests for private farms and company contractors with more than 1,500 samples per year

■ onion seed cultivation fields

Solar power plant

Considering the water shortage situation in the country and environmental pollution and frequent power outages due to lack of production due to drought and excessive heat; In order to help the country's electricity network, Jovain Agriculture & Industrial Co. has operated solar power plants number 1 and 2 with a capacity of 10 megawatts each, and power plant number 3 is also under construction.

■ solar power plants number 1 and 2

Machine building unit

- ✎ Having about 4000 square meters of industrial workshop equipped with 5 20 ton overhead cranes
- ✎ Equipped with machining and rolling machines with high thicknesses, cnc plasma cutting machine and air cutting machine, cnc sub-powder welding machine.
- ✎ Construction of all kinds of sheds (industrial and greenhouse sheds and installation of cold storage structures)
- ✎ Manufacturer of mechanized equipment for animal husbandry, agriculture and all kinds of tools

■ D-star filter machine
Made by machine building unit

Kamelia Hotel

This unit has a premium 3-star hotel with an infrastructure of over 7048 square meters on seven floors and with facilities and facilities including 57 rooms and 3 suites, meeting hall, reception halls, conference hall, coffee shop. Also, having an office of air travel and tourism services in the field of issuing tickets for all domestic and foreign airlines, provides train tickets in Sabzevar city.

■ Kamelia Hotel

People's agriculture sector
